Athletic Fraternity saddened by the recent passing of massage therapist David Cumberbatch

The National Association of Athletics Administrations (NAAA) and the athletic fraternity of T&T are mourning the loss of well known massage therapist David Cumberbatch (Batch). Batch as he was often called, died suddenly and would be significantly missed by all.

David Cumberbatch was well respected amongst athletes and travelled extensively with various teams including teams to the Carifta Games, Beijing Olympics and at the IAAF World Championships in Athletics Daegu, Korea.

The NAAA and the athletic fraternity would like to send deep condolences to the family, it is a great loss to all of us that he passed away, but although he is no longer with us, his strong influence on the field of athletics and his character recognition will last for a life time.
